Empower™ Testosterone Booster Plus

Empower Testosterone Booster Plus™ has all the critical nutrients needed to boost testosterone levels for any man!

Key Benefits

- Naturally Increase Testosterone & Libido Levels
- Increase Energy
- Enhance Sexual Drive and Performance
- Boost Metabolism
- Increase Exercise Training and Muscle Health
- Increase Athletic Enhancement
- Increases Muscle
- Decreases Fatigue and Increases Energy

Key Ingredients

1. **DHEA** – A study done at Washington University School of Medicine showed that DHEA undoubtedly naturally raises the body's testosterone levels. It is an excellent alternative to straight testosterone replacement shots to boost the levels of the hormones that stimulate testosterone production. DHEA is a hormone that is made in the adrenal gland and testes, which changes into testosterone in men.
2. **L-Citrulline** – Is an amino acid that provides many benefits for men's health, including increasing blood flow for better erection results. Best-known for boosting sexual health, L-Citrulline also helps with other conditions such as, high blood pressure and fatigue. Once in the body, it converts to another amino acid called arginine, which has been shown in studies to promote higher testosterone levels without causing the negative side effects that men experience with testosterone replacement.
3. **Tongkat Ali** – Is the most-studied male testosterone booster today. Found in the Malaysian rainforest, Tongkat Ali (also known as Eurycoma Longifolia Jack) has been proven to increase the production of free testosterone and help maintain a strong sex drive, potency, muscle mass and strength, fat distribution, bone mass and sperm production.

nspire NETWORK MISSION. DRIVEN. PEOPLE.

MaxLife™ Prostate Care Plus

MaxLife™ Prostate Care Plus is a revolutionary and complete prostate formula initially created by physicians for their patients, but it is now available to you exclusively through Nspire Network. The all-natural line-up of ingredients make it the best natural solution for men suffering from BPH and Prostatitis.

Key Benefits

Reduced Frequent Urination Urges
Promotes a Great Night's Sleep
Improves Size and Force of Stream
Promotes More Complete Emptying of the Bladder
Formulated by Urologists to Help Their Patients and Others with Prostate

Key Ingredients

1. **Beta Sitosterol** is one of the most important ingredients in "Mother Nature's" medicine cabinet. Research shows that Beta Sitosterol binds to the prostate to help reduce inflammation and the discomfort it causes.
2. **Saw Palmetto** has been shown in studies to diminish the prostate's inner lining to reduce pressure on the structures that carry urine outside the body, thereby making urination easy and comfortable.
3. **Quercetin** is a natural anti-swelling and anti-inflammation agent to reduce prostate symptoms.

Total Recall™ Memory Booster

Total Recall™ Memory Booster's formula contains 5 of the best known mental enhancers to brighten brain function and restore brain power of earlier years.

Key Benefits

- Memory & Recall Enhancement
- Less Mental Fatigue and Forgetfulness
- More Focus, Concentration, and Cognition
- Reduces Stress with Antidepressant Benefits
- Improves Quality of Life & Job Performance
- Improves Quality of Life & Job Performance
- Academic Enhancement / Learning Habits
- Supports Healthy Brain Function
- Designed for Individuals from 18-90 years

Key Ingredients

1. **The Asian herb Bacopa Monnieri**, which has been used for hundreds of years by India's Ayurvedic practitioners as a natural brain tonic to improve memory and mental focus. Modern scientific research appears to support this ancient healer. It contains natural phytonutrients known as bacosides that help with nerve cell repair, production and signaling. All studies show that it will improve memory, learning, and speed of information processing. Bacopa Monnieri has shown to optimize brain power to improve mental focus and enhance short term memory. It can also enhance the activity of vital neurotransmitters involved in information processing and memorization. It also greatly benefits those with ADD & ADHD.
2. **Korean Red Ginseng** contains ginsenosides that decrease amyloid, a beta peptide that builds up in Alzheimer's patients.
3. **Huperzine** increases levels of the neurotransmitter, acetylcholine in the brain, and increases blood flow to the brain.
4. **Vitamin E** gives the brain needed antioxidant protection. Recent research suggests that increased vitamin E helps preserve brain function and protect against nerve cell degeneration. A healthy intake of vitamin E can prevent or slow cognitive decline as the brain ages.
5. **Saffron Extract** helps improve mood and combats depression. Both of which are effects of an aging or overworked brain.
