

Building Your Bridge to Retirement

with

Dr. David Hagstrom

Why invite Dr. David to speak?

Dr. David says...

"In my 34-year career as a parish pastor, I especially enjoyed using my gift for strategic planning--analysing strengths and weaknesses, setting goals, and putting step-by-step strategies in place.

One night, after a careful look at our pension account suggested we would need to work another 6-8 years, my wife, Dana, and I decided to take a radical step, put those planning skills to work, and ask, "What would it take for us to retire much sooner?"

After our own retirement, we discovered we were FAR FROM ALONE!! Many of my "baby-boom" generation are nearing the end of their careers, yet without the resources to retire at the age or in the manner they had expected.

Dana and I soon began to sense a new calling, to help other couples and individuals find a way to retire...by building a bridge across the financial divide between where they are now and where they expected to be at this stage of life. We have focused much of the last 3 years on helping people with issues relating to retirement, transition, and building new income streams.

People are looking for answers. You can help them find a solution."

**Dr. David can help
your audience.
Give them HOPE!**

*Let us help your audience
find a way to retire ... by
building a bridge across
the financial divide
between where they are
now and where they
would like to be.*
